CREATING INTELLECTUAL WEALTH

“

**PUBLISHING HOUSE INTERNATIONAL
IS A NEW START-UP COMPANY DEDICATED
TO SERVING THE EDUCATION SECTOR
GLOBALLY**

”

Every parents dream is to get their child the education they need for a successful and prosperous career. The aim of Phi is to conduct business in

1. Publishing ‘International Journal on Emerging Multidisciplinaries’
2. Conduct annual ‘International Conference in Multidisciplinaries’
3. Publish E-books.

There are many opportunities as well as stiff competition in the education sector. However, the ever increasing population growth has allowed the ‘competition and opportunities’ space to move in tandem. Hence, opportunities in the education sector will always exist. To compete effectively PHI is introducing an innovative way of authoring print and digital media.

“

OUR VISION

Our vision is to provide a global platform for open journals to promote qualitative research publications for Mathematics, Computer Science & Artificial Intelligence, Social Science, Engineering, Business Management & Entrepreneurship and Physical Sciences, with an unrestricted access.

The aim of PHIE is allocate resources and effort to publish independent and high quality IJEMD Journals. All research papers will be evaluated by the editorial board of IJEMD and where necessary have guest editors to ensure the quality and originality of the work. In each issue of the IJEMD the best research paper will be acknowledged and awarded. Authors will be given an opportunity to further their research by writing PHIE funded E-books.

”

INTERNATIONAL JOURNAL ON EMERGING MULTIDICIPLINARIES

Every university and research institution is competing aggressively to increase their global ranking. The better the ranking the more students they attract and receive more funding. One of the key instrument to increase the academic ranking is to increase the number of research paper published by the university. Most Journals charge an administrative fee to publish in their Journal after the submitted paper has been peered reviewed and approved. This has become extremely lucrative business. Once the online auto-submission platform is established, the business will not require extensive work. PHI target is to make IJEMD a Q1 Journal in the next 5 years. IJEMD will be a quarterly publication.

OPEN ACCESS POLICY

IJEMD open access articles are published under a Creative Commons Attribution 4.0 International License. This license lets others distribute, remix, adapt, and build upon your work, even commercially, as long as they credit you for the original creation. This is the most accommodating of licenses offered. Recommended for maximum dissemination and use of licensed materials. All current and previous issues and complete articles can be viewed or downloaded from IJEMD's Website.

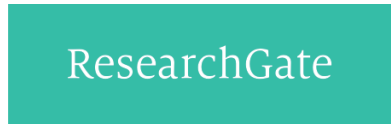

ARCHIVING POLICY

IJEMD utilizes the PKP Preservation Network (PN) to create a distributed archiving system among participating libraries and permits those libraries to create permanent archives of the journal for purposes of preservation and restoration. This is to ensure that the published scholarly content by IJEMD remains available to the community despite any accidental loss of data in its personal archival records. IJEMD has further ensured that the meta-data of all of its open access journal is compatible to all the well-known repository services and their digital crawlers may regularly collect it for record and preservation.

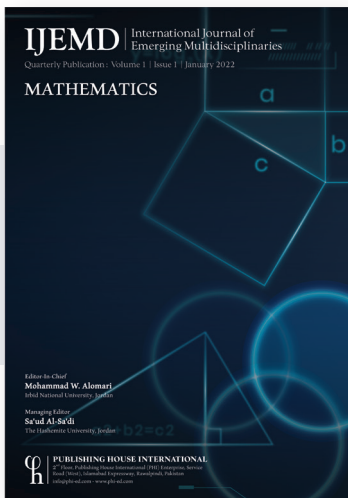

AUTHOR HIGHLIGHTS

- OPEN ACCESS**
Unlimited and free access for readers
- BLIND PEER REVIEWED**
Refereed and indexed journals
- RAPID PUBLICATION**
First decision provided to authors approximately 4-8 weeks.
- NO FEE**
Free article submission and acceptance
- UNIQUE DOI**
For each article
- PAPER SUBMISSION**
Authors can submit paper using the Open Journal System OJS

INTERNATIONAL CONFERENCE ON EMERGING MULTIDICIPLINARIES

PHIE organizes International Conference on Emerging Multidisciplinaries around the world where students, scholar, innovators, and entrepreneurs can present their original ideas to a global audience and get traction. The ICEMD is unique in the sense that the platform is used to provide the audience with workshops, knowledge on current trends in the education industry. They will also acquire the necessary skills needed to be effectively engaged in the education field in a more direct and productive way.

Best student paper will be selected by an expert panel and given a financial reward to take their project from idea to the market-place. PHIE will provide the necessary support throughout the period i.e., “From-lab-to-market”.

DIGITAL PUBLISHING (E-BOOKS)

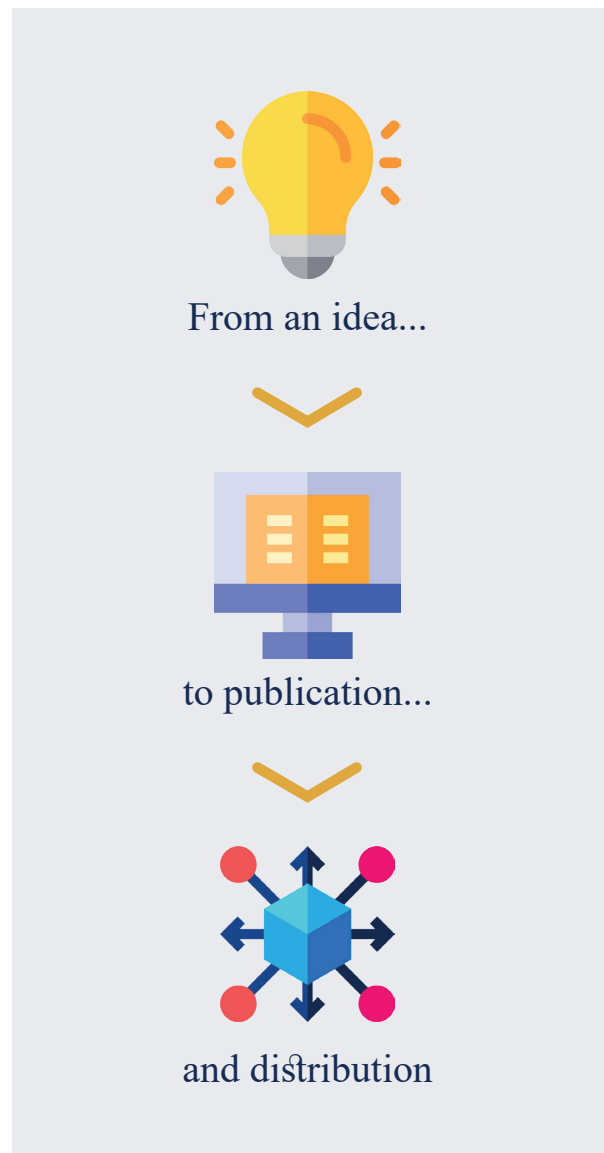

PHI Enterprise publishes all material in digital form, thus conserving and maintaining a sustainable environment

The world is increasingly becoming digital. That means we will soon rather than later school, colleges and universities will use digital copies of textbooks. PHI is introducing analytical authoring tools that will enhance student learning and provide real-time feedback on student progress. Such tools will provide PHI with a competitive edge over competitors.

PHI aims to publish the subscription based as well as the open access academic and scientific books/ chapters in a wide range of areas within science, technology, humanities, social sciences and medicine.

The open access of e-books allows unrestricted online access to the readers without any subscription fees, hence receive more downloads, citations and recognition in the research community.

“

PHI ADVANTAGE

Very strong, highly motivated and totally dedicated team of academicians, entrepreneurs, business leaders to reform education through innovative product and services. PHI will introduce innovate proprietary authoring tools for analytic for efficiency in our business processes.
